Inside suffering deep inside

Something is drinking my blood

It's eating and eating

Until my guts splash out

The smell of rotting flesh

Is ripping me apart

Crawling deep inside of me

It's eating to my heart

Still eating and eating

The rotting will get out

Heavily bleeding

Dripping from my mouth

Inside rottings!

It's crawling and eating

Inside rottings!

A cruel ending of my life

Inside rottings!

It's crawling and eating

Inside rottings!

A cruel ending of my life

My body is falling to pieces

The ending is nearby
The hunger of this creature
It is leaving me to die
Inside rottings!
It's crawling and eating
Inside rottings!
A cruel ending of my life
See yourself lying
Your body is rotting inside
This slow unknown disease
Has taken a part of your life
Your lifeless carcass decayed
The seeds of death remain
It is through your earthly torture
Enjoy unearthly pain
Slowly you die
Eaten from inside
