"Come Now"

Come now, soldier don't linger
Come now, are ya ready
Come now, nimble like a ninja
Come now, definitely
Listen to me good and listen me well
Cause it is only once that I will tell
We don't have no room to carry no false pride
If ya not ready step aside

Chorus

Some people saying Dread ya lucky
You can get away with anything
But I'm not lucky I'm just plucky
And I know which way the pendulum swing

Chorus

This could be meaner than Iron Mike fight
Now tell me can ya handle it
Man don't you want to see
The wrongs right
Or ya jus come si down pon it

Chorus
