You see I
A different I

I want it Ital, or else come off my case
I want it Ital, or else come out my place

If you don't like it, you can bite it
But if you do then deal with it
Now I don't care what anyone will do
To mine ownself I must be true

I want it Ital, or else come off my case
I want it Ital, or else come out my place

I'm not a man of many words
I would prefer some action
Right now I'm ready for anything
Fill up your cup to the brim

I want it Ital, or else come off my case
I want it Ital, or else come out my place

You see I
Peculiar I

If you don't like it, you can bite it
But if you do then handle it
Now I don't care what anyone may do
To mine ownself I must be true
