Bleak roll the cosmic sea  
From dismal shores of a barren world  
Grim foreboding translates  
From far-flung nameless nebulas

The sun shall set forever  
And dusk will choke the desolation  
Of this world shrouded in rapture of ruin  
Freed from misgivings of a feeble race

This blasted plain, a focal point  
To immense apocalyptic tribulation  
Pinnacle of destruction towers  
The summoning of the elder void

Under the pall darkness encroaching  
Humanity squierms in the pyres of atonement  
The overture of our terminal dirge  
Pleaded in vain to an empty sky

Hearken the call  
Eaters of soil and dwellers in the depths  
Rise from your earthen wombs  
And smite the light  
Quicken from frigid rest

Vortex of our ancestry  
Reclaims forgotten past  
Emptiness prevail in disincarnate splendour  
Free to roam at last

Hearken the call  
Eaters of soil and dwellers in the depths  
Rise from your earthen wombs  
And smite the light  
Quicken from frigid rest

Bleak roll the cosmic sea  
From dismal shores of a barren world  
Grim foreboding translates  
From far-flung nameless nebulas
