

Iniquity **"Surgical Orb"**

Visit "[Surgical Orb](#)" on MotoLyrics.com

Suction needle inserted through the eye
Insidiously penetrating the frontal loop
Lids react with spasmodic tension
Matter extracted by tenacious mechanics

Back arches in a perfect curve
Laser scalpel begins to serve

Skin peeled from the thighs and the back
Purplish blots shower the neck
Rubbery tubes appear from nostrils
Rejected gush abandons tonsils

Eager greyish fingers
Tightening the straps
Surgical orb lingers
Genital tube extracts

DNA sequence synthesized
Fused with alien matter
Cloned, designed to infiltrate
Impossible to germinate
Torn from domestic dormacies
Forced into lightning pregnancy
Vacuum bag ensures paralysis
Infant in genetic analysis

Anthropoid skeletal shell retained
In incubation
Oversized eyes of black stare empty
An indication

Suction needle inserted through the eye
Insidiously penetrating the frontal loop
Lids react with spasmodic tension
Matter extracted by tenacious mechanics

Back arches in a perfect curve
Laser scalpel begins to serve
