Give me love and money
Give me love and money
Give me love and money

A diamond life is just what I need
Pleasure and joy forever
Get what I can get 'cos life is a bet
No pleasure and pain together

But you know for sure
There is something I miss
I'll let you guess I know you will get it
'Cos I would forget everything for a kiss
But if you've got some money I know
It would be better

Give me love and money
Give me your love my baby
Give me kisses honey
I deserve the best you know it
Give me love and money
I have the rest already
Love and money coming from you
Is what I need

Give me love and money
Give me your love my baby
Give me kisses honey
I deserve the best you know it
Give me love and money
I have the rest already
Love and money coming from you
Is what I need

A shining life is just what I want
You (and) me inside a cabin
Get what I can get but I lost my bet
You're poor but I need your loving

But you know for sure
There is something I miss

I'll let you guess I know you will get it
'Cos I would forget everything for a kiss
But if you've got some money I know
It would be better

Give me love and money
Give me your love my baby
Give me kisses honey
I deserve the best you know it
Give me love and money
I have the rest already
Love and money coming from you
Is what I need

Give me love and money
Give me your love my baby
Give me kisses honey
I deserve the best you know it
Give me love and money
I have the rest already
Love and money coming from you
Is what I need

A diamond life.....
Get what I can.....

Give me love and money
Give me your love my baby
Give me kisses honey
I deserve the best you know it
Give me love and money
I have the rest already
Love and money coming from you
Is what I need

Give me love and money
Give me your love my baby
Give me kisses honey
I deserve the best you know it
Give me love and money
I have the rest already
Love and money coming from you
Is what I need

A shining life is just what I want
