Love is in danger!!

I don't wanna hurt you but I need to talk
To talk about our love
I don't wanna hurt you but I need to walk
Walk away, walk far away from you and I

You know I'd like to fight to give our love another
chance
A new romance, keep my heart with you

Love is in danger (it) is gonna die
Love is the saver (it) got to survive
Love is in danger I want to keep my love alive, alive
forever

Love is in danger (it) is gonna die
Love is the saver (it) got to survive
Love is in danger I want to keep my love alive, alive
forever

I don't wanna stay but I don't wanna go
You got to help me now
Tell me if you need me or baby tell me "no"
Got to know got to make up my mind and I

You know I'd like to fight to give our love another
chance
A new romance, keep my heart with you

Love is in danger (it) is gonna die
Love is the saver (it) got to survive
Love is in danger I want to keep my love alive, alive
forever
