MAXPOWER(16x)

Even if you feel bad, Even if you wish to leave and go
awa
In and out of madness, In and out of goodness
You must be awake

When it's freezing when it's burning
Hold your black car, let it go far
Burns the fever burns as fire
Never never surrender

Max power Maximum and higher
Beat em all, lest beat em all
Max power, get it on, you go there
Lets get what you belong to

Always in the riot, always in the lion's cage
It's what you need
Till the counter beats four, till your body needs more
Oxygene to breathe
