Look into your eyes  
Oh baby baby let me know  
Take me back into the night  
Golden seventies  
The time is passin' by you know  
What I need babe

Like to my songs I'll give you all my feelings  
For you my little pretty woman  
Baby I need your love  
Baby I can insist  
Don't let me go again, baby I want you

Night fever night fever  
Disco in town is on fire  
Night fever hi-fever  
Burning with me 'cause the night's on fire  
Night fever night fever  
Disco in town is on fire  
Night fever hi-fever  
Here we go here we go... Night fever night

Let the music flow  
I'm ready baby listen now  
Lay your hands on me right now  
Let your feelings free  
And listen to me : what I need  
You, just you babe

Like to my songs I'll give you all my feelings  
For you my little pretty woman  
Baby I need your love  
Baby I can insist  
Don't let me go again, baby I want you

Night fever night fever  
Disco in town is on fire  
Night fever hi-fever  
Burning with me 'cause the night's on fire  
Night fever night fever  
Disco in town is on fire

Night fever hi-fever  
Here we go here we go... Night fever night

Look into your eyes  
Oh baby baby let me know  
Take me back into the night

Night fever night fever  
Disco in town is on fire  
Night fever hi-fever  
Burning with me 'cause the night's on fire  
Night fever night fever  
Disco in town is on fire baby  
Night fever hi-fever  
Here we go here we go... Night fever night

Like to my songs I'll give you all my feelings
