[Intro]

A couldnt think of a better way to prove to ya a love ya
so a made this for ya

[Verse 1]

A love you jordan now why can't ya see it a like ya so
much can ya not feel the vibe now why can't you feel it
if I ever go past you a get this feelin that a think you get
to a feelin of me now feel ma vibes cus a can feel yours
a say that out loud cus I have nothin to hide a went past
you one day an the first thing we both did was hide are
heads away we both looked down but a get this feelin
from ya a feelin of cautiousness it felt disgarded a
must confess but am only tellin ya the truth an you
know it's true so do not deny it av seen you quickly
lookin at me an a wont be defient when a walk past the
science room with ma bro we both clashed eyes an a
know that's true but a don't mind you or looking at me
that's good for me deep down in ma heart there'l
always be a place for you from me now jordan don't
take this offensive or personally or the wrong way now
please am just stating the truth remember that time
time when we both chipped are tooth on the same night
aswell now isn't that freaky or is it god trying to put us
together trying to tell us a message a know am from hell
but am trying to tell you an important message fuck the
stereotype business so what a know were different in
how we dress a must confess but so what oh well don't
let that stop anything

[Chorus]

It don't matter how far away you are from me you are
your still close deep down av always left a space for
you when am near you just remember am still thinking
of you always an ever the name makes me divver but
am here to deliver the message a love you (kiss) x2

[Verse 2]

It's so hard to describe how a feel but this line is
floorless ma love for you yes it's lawless but you just
can't see it am saying it you an yes a made it but first
you have to play it a think you fear it you jus wont have
it or take it an I aint fakin so don't fake it am givin you
something precious so please don't break it miss use

or shake it cus if you do then it shake an affects me an
takes me am just cleaning a few things up in ma mind
ya see am writting thses lyrics for you jordan so note
that a can't describe to you how much it hurts for me
just when a see pictures of you ya see ma heart sinks
something hits ma mind it destroys it it's like the blitz
but a must stay focus it hurts so much deep down
inside a just dream fo kissin those lips do you ever
miss that big smile of mine just for you a wish we'd had
a chance just me an you an a will probably get a load of
shit of people for doing this but am doing it for you an
a want you to know that a want you to be happy an a
want you to show resepect like av shown you don't diss
that a miss that look in your eyes your a beautiful girl
that's what a used to say you've got beautiful eyes so
big an wide smiley face beautiful face that ya can not
hide this songs for you jordan this is your song don't
get me wrong nowone elses song just your song this is
jordans song this is jordans song

[Chorus]

It don't matter how far away you are from me you are
your still close deep down av always left a space for
you when am near you just remember am still thinking
of you always an ever the name makes me divver but
am here to deliver the message a love you (kiss) x2

[Verse 3]

Am having these thoughts am sleeping next to jordan
it's all fine but then a wake up an then a continue falling
ma hands slippin away gradually away further a love
her so much it's not fair how dare you let this happen to
me a set ma mind on you a set ma heart on you as you
broke it so quickly rapidly so fastly now let me see that
may seem nothing to you but it means everything to
me now don't be blind jordan let yourself see open you
eyes am there lookin still lookin that's cus a care so
much about you you remember when used to smile at
you you may have fogotten but they have stucken with
me those two hugs that you gave me remember oh god
damn god help me please it hurts so much when you
remind me the pain digs away an eats away within me
but you ignore an carry on with life without me now
jordan you must understand that a find it hard to
express ma feeling so the only way a can do it it is
through music so please listen a love you but a don't
think you can see it or you find it hard to show it just
like me two opposites attract remember when a said
that I also find it hard to show it but a know deep down
you can feel it everytime a go past you your breath a
breathe it (big breath) just like you sometimes a feel
like gettin a gun an cockin it puttin it in ma mouth
screamin A LOVE YOU JORDAN! an then pullin it what

have a created a aint no bullet FIND IT! it's still there in
your heart jordan just reveal it show it don't blow it cus
then it's gone if a cud just hold you a would never let
go a would hold you tight keep you safe through cold
nights (nights) prove it to me cus a know av proved it to
you by doing this a hope you can understand to so do
not dismiss it (dismiss it dismiss it)
