(Lead:Anatoly)

Sheer wreck of history of nations

Like dislocation of the feelings of time

In wrath playing a trump by leprocy

It seems the swamp is the same

Immense decay

No fear and refuge of past

As pain means nothing more

...Swampy gloom!..

Sigh of unconsciousness resound

In hollow silence

Nothing will change evermore

Nothing will bear withing the peach

sombreness!..

In the absence of life

I'm being buried now

To the utmost extent I'm being led

into finite eternity

Persistent call of incorporeal world

Pours in our lethargy

Vagrant singing of mounful psalm

I'm a human

I'm an incarnation of

all human race

Chaos cash

Since earliest times

Enemy of all what is existing now
