In the raid of visions and shouts
I'm climbing upon the thickets of cries
Through which the pain of One is gnawed
Step by step, no reality
All that I see-
Shadows lost in darkness
Visions, explosions, skulls, shivering...
Gaped mouth, mask means oldness,
Smoke, ulcers, shivering,
Shadows lost in darkness,
Visions, explosions, skulls...
DEPRESSIVE DESCENDING OF DEATH
And no noise, no silence, no exclamation
I listen to heart but in vain

In the raid of visions and shouts
I'm climbing upon the thickets of cries
Through which the pain of One is gnawed
No noise, no silence, no exclamation
Depressive descending of death
Suffering...
Legacy of plague, legacy
No reality, step by step!..
Explosions, remains, masks means oldness
Proceeding from midnight,
from drawsiness of centuries,
from crimes...
NO REALITY
STEP BY STEP
NO REALITY...
