Admonitory ghosts of past
Suppress your temporary light ideas
Imminent shadows, lunacy and lust
Delightful burial of sense without tears
...despondency
Violation of the time is condemt
Gyve of the soul leprocy
Stronghold of superstition
Insentsibility
You've got a fear show to breake
The betters of experience
Anxiety, the first sign
Of irrevocable steps to immortal world

...despondency
Human antecedent is many reckless ways
Towards the God's revial
Asperity of fate
is not axcuse for everyone
And the forlorn temples
will turn in giblets
On the celectial circle of justice
Gory spirits attitudenize
At last gasp of Eternity
Viced, you'll disappear
Leaving no trace among the Dead
