"Revolution"

Come on everybody now you got to understand,
In these times of revolution now you gotta be a
revolutionary man,
Wait a second, people, now, you got to get a plan,
We're gonna have a revolution and we don't even need
to know why,
Brothers (brothers), Sisters too (sisters too),
Revolution...don't know what to do, yeah!

Come on everybody now, you got to get a life, ya,
In these times of revolution, and you must be prepared
to die,
But wait a second people, don't you think it's got a little
out of hand,
In these times of counter-revolution you're gonna
encounter
A counter-revolutionary man, oh
