The night is cold and filled with pain
And a cruel wind drives home the blissful rain
But underneath this neon light
A dream away is paradise

Come and take the kiss of Hades
All you gents and all you ladies
Before you stands your liberator
The loving god, annihilator

The lost souls line the concrete wall
Their blank eyes of death, they tell it all
Of shattered dreams and ruined lives
A dream away is paradise

Come and take the kiss of Hades
All you gents and all you ladies
Before you stands your liberator
The loving god, annihilator

In despair, he's all around
And the dark claws of hell drag you down
And death has wings and time it flies
A dream away is paradise

Come and take the kiss of Hades
All you gents and all you ladies
Before you stands your liberator
The loving god, annihilator

Come and take the kiss of Hades
He will save you, sorrow's babies
Your final saviour stands before you
He will love you, he'll adore you

Come and take the kiss of Hades
All you gents and all you ladies
Before you stands your liberator
The loving god, annihilator

Come and take the kiss of Hades
All you gents and all you ladies

Before you stands your liberator
The loving god, annihilator

Come and take the kiss of Hades
All you gents and all you ladies
Before you stands your liberator
The loving god, annihilator

Come and take the kiss of Hades
All you gents and all you ladies
Before you stands your liberator
The loving god, annihilator
