Come to me now on the wing of the storm  
Hear me now, come at my call  
Come to me across the midnight sky  
Awaken to the darkness and fly

Across the sea of space take flight  
Come to me, I need you this night  
Across the million years make haste  
Come to me at this time and place

Come Nightwing, my Nightwing  
Take me up and save me  
My Nightwing, my Nightwing  
Rescue me my Nightwing

At the light of dawn I may well be dead  
So come to me now and share my bed  
Time is short and I can't wait  
And in a moment will be too late

Come Nightwing, my Nightwing  
Take me up and save me  
My Nightwing, my Nightwing  
Rescue me, my Nightwing  
Oh Nightwing, sweet Nightwing  
Only you will do, my Nightwing  
My beautiful dark angel  
Come to me, my Nightwing
