Smile of torment
Eyes of anger
Lips of passion
Blood hunger
A dark angel
Lust for danger
Come take my hand and I'll lead you to madness
Claws of thunder
To drag you under
A heart that's burning
An evil yearning
The dark fever
Will bring you nearer
Come take my hand and I'll lead you to madness
Fly with me into eternal night
I'll take you up on my wings of astral light
Lust maker

Heart breaker
Soul taker
Love faker
Thirst slaker
Accumulator
Come take my hand and I'll lead you to madness
Fly with me into eternal night
I'll take you up on my wings of astral light
And I'll will love you for a thousand years
I'll take you up then drown you in your tears
