Born of Hell and born of night
Anarchist and Antichrist

Lost in lust, you shall be dust
Now the burning Sun is falling
From the dark skies above
A cornucopia of disease
We will bring you to your knees!
We have come devoid of love
We're the Vampire Punk Rockers from Hell!

All your nations rise and fall
And we have come to destroy your world

We have seen it all before
We are your apocalypse
And we are the final kiss

We're the Vampire Punk Rockers from Hell!
And we have come to destroy your world
And we have come to destroy your world
We're the Vampire Punk Rockers from Hell!

From the void we're coming back
Black on black and black on black
We are lost, and lonely
But we're the holiest of the holy

We're the Vampire Punk Rockers from Hell!
We're the Vampire Punk Rockers from Hell!
And we have come to destroy your world
We are dread, we are destruction
We're the Vampire Punk Rockers from Hell!

We will take you and we will waste you
We are a nemesis from a distant star
We are the dead, we are the damned
Angels and monsters, from your nightmares and your
dreams
And we will drown you in erotica
NEMESIS, HECATE, LILITH, KALI
