Come join with us in our rune tonight

And feel the circle spin

Let your spirit soar in the lunar light

As the Spiral Dance begins

Come with us speeding through the night

As fast as any bird in flight

Silhouettes against the Mother Moon

We will be there soon

When the spinning ceases you can dance no more

Kiss the silent earth

We will tell our children of the Ancient Lore

At the moment of their birth

Isis Astarte Diana Hecate Demeter Kali Inanna
