A distant shriek breaks the quiet night  
Night creatures turn their their ears  
Skyclad figures ride enchanted steeds  
Chasing on at breakneck speeds

Can you see them speeding through the night  
As fast as any bird in flight  
Silhouettes against the mother moon  
They will be there soon

When the cloud rolls on there wait there sister dears  
No one else could seem to hear  
Let us join together in our secret art\*

Merry meet and merry part

Can you see them speeding through the night  
As fast as any bird in flight  
Silhouettes against the mother moon  
They will be there soon
