You can see nothing yet
By candle light
I'm soaked in kerosene
I will keep on dreaming
You light a cigarette
To calm your nerves
I swallow knives for fun
Pretending knives are words

[Chorus]
When my dreams are not enough
She's never grown cold
My hopes wont satisfy
She's never grown cold

You're my silver medal tonite
A stab wound doesn't hurt from your side

Paper planes in the rain
I still feel safe
I'm holding onto you
Along with two grenades
These wings are flammable
They're your way out
When we can trust the ground
Then we can head back down

[Chorus]

I'm calm within
Under camouflage
I'll stay calm within under camouflage
