

Inme "Around We Go"

Visit "[Around We Go](#)" on MotoLyrics.com

Set in this wave of summer, loving the things you are
Wiping the smile off all the things I want to do to you
Pressure inside gets thicker, my head and my damned
actions
Drawing a line between her eyes to find some truth in
here

Around we go, around we go
Around we go

Around we go, around we go
Around we go, around we go

Soaking it all with silver, I'm glad we finally met
This emotion doubles up to make us feel again
Finding life in substance, in the dark we turn
Passing round this hold you pulverise, we hide
ourselves

Around we go

Around we go, around we go
Around we go, around we go

Yeah

Around we go, and around we go
Around we go

Around we go
Around we go, around we go
Around we go
Around we go, around we go
Around we go
Around we go, around we go
Around we go
Around we go, around we go
