Now leave me forever
And I was so glad to meet you
But now you're gone
They try to laugh at us
But their smiles slowly rupture
Into a linear confusion
I wanted you but now I need you
I throw it all away
And made the same mistakes

Electric blanket keeps my feet alive
Just so I can get to you faster

I wanted you but now I need you
I throw it all away
And made the same mistakes

Now comes that time
When we lie to ourselves
Feeding off the eyes of cupid
Ohhh now comes that lie
Time and time again
Feeling such deep regrets
But holding onto you

Now leave me here
Because I want to rot on my own
I feel no fear
Because I know that this way that I can't hurt you
My time grows near
I reach out and I touch the fire
So leave me here
Because I want you so bad

Now comes that time
When we lie to ourselves
Feeding off the eyes of cupid
Ohhh now comes that lie
Time and time again
Feeling such deep regrets
But holding onto you

Now leave me here
Because I want to rot on my own
