[Louieville]

muthafucka had it up to here,
from my chest to my head
when the led paint the town red bloodshed your dead
I groove thru these pavements
we all together theres no slaveships
so run these rebels that race this
be watchful of large cows hovering covering in the
dawn
husk its the storm, I cock back
relax and drink the henne-vill slugga
my fleet will see ahead so we will see you sucka
shake em down for profound sound
punk your down by lightnin, throw your fists up cuz...

[Tek]

the escapade when its followed, move the shit from
Guatemala
move the Q-U 7 years ago wit my father
I met shorty whop at a block dice game
no words where exchanged, body language did its
thang
think I didnt when I did take honey back to the nest
twist the back as soon as we hit the rest
me tongue and kisses sway like a fly wind bloom
seductively undressed as she layed across the room
and cocked her seat up on the bed and grabbed her
ankles and said
its been a long time lets see if your ready yet

Chorus

All my peoples are you ready

R-U..all my peopless are you ready

[Steele]

we the soldiers of misfortune have faught one common
cause

I keep mine in yours for fallen off
when sources uncontrollable offers coffins for all of
you
soon we'll see it might be too late to come in unity

[Rock]

Yo its on again,

[Ruck]

From an unknown region, me and my legion
never believe in the evil ways of a heathen
I breathe in, out improve on my physical
trees keep me blessed, prepare for my ritual
its critical when I belittle fools wit syllables
I choose to use cuz yall niggas is pitiful
its difficult to see whose ready
Nocoturnal journalist racin thru crews like Andretti

[Buckshot]

As I come back on tracks
put you in the mood to sit back and relax
I hope you cop a swat cuz what I got rocks
your mind body and soul as I take control
whats the definition of Buck..Force
I stayed away for 3 years but came back in the 4th
to stand alone on the throne of course
Buck be the boss, the rest gettin tossed
True....
