Skeptical infatuation, my obsession,
Telling the world you dont belong here well i think you
do,
You are the fruit,you are so sweet,
But this sounds like the time you said to me you never
wanted me inside you,you.

Inside you,
Inside you,
Take me inside,
I can't rely on you.

Your always unpredictable, You leave no trace,
You never introduced yourself, Introduce me,
You always change your mind, You make no sense,
I love you that way.

Seperate, lacetate,
Sail through the sins,
Crawl around my hands.

Your always unpredictable, You leave no trace,
You never introduced yourself, Introduce me,

You always change your mind, You make no sense,
I love you that way.

Crunch dry leaves, convenient beliefs,
Hairs on end, mutters dreams,
Finding something, broken from us,
Drinking me dry, smiling to cry,
Goosebumps galore, Can't expect more,
Fracture vision, I see her face,
I bring you down.

Your always unpredictable,You leave no trace,
You never introduced yourself,Introduce me,
You always change your mind,You make no sense,
I love you that way.
