"Crazy Sexy Wild By"

Visit "[Crazy Sexy Wild By](#)" on MotoLyrics.com

Heart beat steady baby ready to play,
just let the disco light come and take us away,
i feel the heat, like a fire bring it closer to me
just let it out
its like a spark burning steady from the east to west
I feel the base getting louder bring it outta my chest
I like the way that you do it, cause you do it the best
so glad i found you
you and I
well dance until we die, crazy sexy wild
we just want to let it out
touch my body with the music
baby you know i want it X2
move to the right, right up and down, crazy sexy wild
move to the right, right pump it loud, crazy sexy wild
move to the right, right up and down, crazy sexy wild
move to the right, right up and down, crazy sexy wild
you and I
well dance until we die, crazy sexy wild
we just want to let it out
touch my body with the music
baby you know i want it
Heart beat steady baby ready to play,
just let the disco light come and take us away,
i feel the heat, like a fire bring it closer to me
just let it out
you and I
well dance until we die, crazy sexy wild
we just want to let it out
touch my body with the music
baby you know i want it X3
