I saw you saturday night.
You were in club I was right.
You told me your so sorry.
I think I heard that story.
You lied to me every time.
Don't worry I will be fine.
I think I'm going crazy.
Stop calling me your baby.
No way baby no way baby.
I think I told you once.
I leave you if you do that to me.

How you gonna feel if I told you that.
When you really really want me.
I will never come back.
Nobody, nobody is coming back.
I saw you saturday night.
You were in club I was right.
You lied to me every time.
Don't worry I will be fine.
No way baby no way baby.
I think I told you once.
I leave you if you do that to me.

How you gonna feel if I told you that.
When you really really want me.
I will never come back.
Nobody, nobody is coming back.

Waiting for to long.
But I will be so strong.
And you wã~ll be so lonely, lonely.

Waiting for to long.
But I will be so strong.
And you wã~ll be so lonely, lonely.
