I saw you sad every night
You were in club, I was right
You tell me you're so sorry
I thing I heard the story
You lie to me everytime
Don't worry, I will be fine
I thing I'm going crazy
Stop calling me your baby

No way baby, no way baby
I thing I told you once
I live you if you do that to me x2

How you gotta fill if I told you that
When you really really want me, I'll never come back
Nobody, nobody has got me back x2

I saw you sad every night
You were in club, I was right

You lie to me every time
Don't worry I will be fine

No way baby, no way baby
I thing I told you once
I live you if you do that to me

How you gotta fill if I told you that
When you really really want me, I'll never come back
Nobody, nobody has got me back x2

Waiting for too long
But I will be so strog
And you wÃ¯ll be so lonely, lonely x2
