Let forever be forever
We live only for tonight
We are energy when we shine ali-li-li-light
And your heaven is my heaven
We go higher than the sky
We are energy when we shine ali-li-li-li-li-light

(Whoah oh) x4

Don't let me hold you closer
I wanna feel your skin
Feel you pull me in
I'll be your tiny dancer
Your hands up on my waist
And we're face to face

Finally found!
My heart is a drum
I move to the sound
As two become one I have finally found
The heat of the night
We come aliive

Let forever be forever
We live only for tonight
We are energy when we shine ali-li-li-light
And your heaven is my heaven
We go higher than the sky
We are energy when we shine ali-li-li-li-li-light

(Whoah oh) x8

Don't tell me all your secrets
Your love is in your lies
Look me in the eyes
Reach for me through the darkness
I'll catch you if you fall
We can conquer all

Finally found
My heart is a drum
I move to the sound

As two become one I have finally found
The heat of the night
We come aliiive

Let forever be forever
We live only for tonight
We are energy when we shine ali-li-li-light
And your heaven is my heaven
We go higher than the sky
We are energy when we shine ali-li-li-li-li-light

(Whoah oh) x8

Let forever be forever
We live only for tonight
We are energy when we shine ali-li-li-light
And your heaven is my heaven
We go higher than the sky
We are energy when we shine ali-li-li-li-li-light
