(Verse)

I can't hide I'm getting excited
You're my kind I know I can't fight it
Naked, fire burning the brightest
Hoooo ooo

(Pre-Chorus)

I'm trying to get on now the temperature drop
Ain't shut the window now you feeling so hot
I ain't gonna lie wanna see what you got
And all the girls say
Don't let you clothes get in the way

(Chorus)

So take it off
We're burning up in here
You got the body for it
You don't have to care
So take it off
And throw it in the air
You got me feeling sexy
Baby yea yea yea
So take it off off off

La la la la li
La la la la la
La la la la li
