I can't imagine me without you  
Or one and one could never be two  
Can't imagine me without you  
Wow, wow

I can imagine there are no countries  
Now I know what you're thinking  
Can you imagine what I'm feeling  
This feeling of love I feel

I can imagine there is no sky  
Now don't go thinking  
I'm exaggerating  
You without me, I can't see

Thinking I'm crazy  
Yes, I'm crazy for you

Try so hard to describe  
The way I feel  
I'm searching for a way  
Whenever be that day for me  
Or will I still be saying
