Keith E.E. emcee on a spree I'm goin for this  
cause draws applause, yes I adore this  
I'll reteach with speech, I can accomplish  
I've got to flaunt this, I'm not a pessimist  
Yo I'm an optimist, that's why I'm droppin this  
I'm good I got style, cause I've stood for a while  
In the shadows of the others gettin mellow with the  
brothers  
called the Gang, and yes I can hang  
Progressin with my lesson while I do my thang

I've got gusto  
"My man gots that gusto" "Word"  
(repeat 2X)

You say your rhymes flow, I say I'm spontaneous  
Rockin the place, I'm not mainly just  
sayin some words that are weak or incoherent  
And it's apparent, that you fear us, the Gang  
but I'm still a peace seeker  
I'm in your face, don't have to sneak ya  
Dope rhymes speaking with wisdom of a preacher  
and I'm here, cause you've been victimized  
I'm sincere, I see through gifted eyes  
So yo, we're gonna see what the race is  
That's where you groups, will have to face us  
And you can bet we'll be in tip-top shape  
Nice so precise with a hip-hop update  
Wait, I got a shoutout for the ladies  
Come check me baby, don't underrate me  
Cause I'm a man with the plan for all  
The Guru, to groove you, get out the wall

I've got gusto  
"My man gots that gusto" "Word"  
(repeat 2X)

I've got gusto, so I'm kickin it well  
I got gusto, with much clientele  
So I pump it, to a higher decibel  
Have a seat, listen cause the rest it goes smooth

and improve and bust a move  
I am the man with the true blue potential  
I am essential, I drive you mental and back  
Attack mack and rap  
And as you calm I will romp  
Like a giant I stomp

I've got gusto  
"My man gots that gusto" "Word"  
(repeat 2X)

Really? Right, you wanna be a emcee?  
Then go against me -- boy don't even tempt me  
Cause I go house on the freestyle tip  
Math you and blast you and then just shift  
into hype gear, no fear, I persevere  
Year after year, rehearsin verse so clear  
Cause I've been into rhymin man for like eons  
And every stage, word I wanna be on  
So I can show you how it's gotta be done  
I never run or shun, I've just begun

I've got gusto  
"My man gots that gusto" "Word"  
(repeat 2X)

..

"My man gots that gusto" "Word"  
(repeat 2X)

Ahhh yeah... gusto...
