"Set Your Body Free"

Oh, I
See my way into another world
It's just on the other side--
Can you make the journey into my world?
I am faced with many things
With love and diamond rings
And more, so much more.
But now I'm ready for something new
A journey built for two
So come along with me.
I'll set your body free

You want to
You got to
Set your body free

Can you visualize
The pleasures with me?
There is much more
Much more for you to see, baby
Let me show you a real good time
Come along with me
I'll set your body free, yeah
