You deny and you criticize
Don't feed me with your lies
My soul and hate arise
You cannot fuck with tha tribe.

I let you know we don't need fight
So why sit and criticize
My anger will arise
If you don't back tha fuck up tonight.

All I want is peace in life
No bullshit and no lies
No murders and no fights
So you can fuck off tonight.

I can't be fucked with your lies
Let's live peaceful lives
That's no crime I got my rights
Don't fuck around with my life.

BACK DOWN ENEMY!
