Are you lost in a world of catastrophobia?
Do you envision an hourglass not to be turned again?
The air we breathe harbours misguided intentions
It's necessary to acknowledge these things
And wake up to the many truths of this age

Illusions of status
You thought that you had us
Dumb and blind and out of time
But the crime was in your mind
You tamper with our Earth
But you are blind to our Light

Our leaders fighting games prove to us that they are
greedy
Now only we hold the right to stop the bleeding
Our leader's controller's seek to oppress the people
every day
Now only we hold the right to stop the bleeding
And change

After a thousand generations of pain
We're learning not to play the tempter's game
Innocence and pure support have been handed to the
oppressors
But why?
Their controlled media has purposely fed us nothing
but lies
Their secret de-evolution keeps us in the dark
Why do we lift them up so high
They call for war and send our sons to die

Promises for centuries kept our gaze fixated on the sky
And fueled illusion and war with force-fed national
pride
All the false symbols, logos and grid distortions that
were applied
Are burning whole in the fires of change inside
Why is it age after age we keep lifting the oppressors
high?
Their controlled media has purposely fed us nothing
but lies

Opposers of unity attempt to shake us up in the night
But we hold the power in this moment to reclaim all of
our rights
We choose to be chosen
We choose to be chosen
We choose to be chosen
And begin with our Light
