

Inner Terrestrials

"ECT"

Visit "[ECT](#)" on MotoLyrics.com

Who are you to call me mad, you have no fucking right
You're the ones who say that night is day and day is
night
I can see with my own eyes mass containment within
lies
Your help is like a knife stuck deep into my life

They said I was insane
I said they were insane
And the bastards outvoted me
I said they were insane
They said I was insane
And the bastards outvoted me

Your rules, your world, your way
Don't pretend I've got a say
You lock up everything that you don't understand
I can see with my own eyes mass containment within
lies
Your help is like a knife stuck deep into my life
