

Butthole Surfers "Creep In The Cellar"

Oh there's a creep in the cellar that I'm gonna let in
There's a hole in his brain where his mind should've
been
When he starts talkin' backwards your head starts to
spin
And he really freaks me out when he peels off his skin,
yow!

Oh there's a creep in the cellar with his hands in the air
And he lies to his mother but she doesn't care
When the fists are flying backwards and the ballroom
is bare
Cause the turkey's talkin' backwards, it'll raise up your
hair
Oh there's a creep in the cellar that I'm gonna let...in
