You want the people
To be the people
You want the people
To love you
You need the people
To show the facts
Instead again
They shove you
You want the people
To be the people
But they don't need you
You need the people
To show the facts
But they just bleed you
The other man
His face is lost
And your much colder
Then again
The other man
He's much more
You need the people
To be the people
You want the people
To love you
You need the people
To show the facts
Instead again
They shove you
You want the people
To see the people
But they don't need you
You need the people
To be the people
But they don't need you
Then again
The son of a bitch
He's much colder
And then again, And then again, And then again, And
then again,
You want the people
To be the people
You want the people

To love you
You need the people
To show the facts
Instead again
They shove you
Want the people
To be the people
They don't need you
Need the people
To show the facts
But they just bleed you
The other man
His face is lost
And your much older
Then again
The other man
He's much bolder
