I knew he would do something very odd...
Come on everybody, now you've got to understand
In these times of revolution well you've got to be a little
sensitive
Now...wait a second people, now you've got to get a life
We're gonna have a revolution and we don't even know
why
Brothers...sisters, too
Revolution...don't know what to do
Come on everybody now, you've got to get a life
In these times of revolution now you must be prepared
to die
Now...wait a second people, now don't you think it's go
a little out of
hand?
In these times of counter-revolution you're going to
encounter a
counter-revolutionary man
Gary Shandling Gary Shandling (repeated
immeasurable numbers of times)
