I used to think that you were pure  
But now I see that you're just empty  
Oh, lie to me, it's the new poetry  
It's the language that we speak  
I've become numb  
I've become numb

You know I love you, but you might be the death of me  
Hold me down, suffocating, please let me breathe  
Kiss kiss, lights out, I've got to, we've got to,  
You know I loved you but you're gonna be the death of  
me

I've got to tear away from you  
I left you bruised, you left me broken  
Oh, don't try to speak, if you do one thing for me  
Make yourself numb  
Just make yourself numb

You know I love you, but you might be the death of me  
Hold me down, suffocating, please let me breathe  
Kiss kiss, lights out, I've got to, we've got to,  
You know I loved you but you're gonna be the death of  
me

You know I love you, but you might be the death of me  
Hold me down, suffocating, please let me breathe  
Kiss kiss, lights out, I've got to, we've got to,  
You know I loved you but you're gonna, you gonna  
You know I love you, you might be me the death of me  
Might be the death of me  
Oh you know might be the death of me  
Oh you might be the death of me  
You might be death  
Says you might death of me
