[Dance with me]

She's just simply just a concept  
Baby you don't know how much I can get  
An when you speak you speak of sex there's nothing  
left I have to lose now  
You've been looking for something something to make  
a new connection with earning a good thing  
An I've been waiting for someone someone to break  
the repetition with the sindrid sorrow

It's in the way she moves across the floor  
An the way she keeps me waiting for  
For what I can't recall  
Now I'm standing on the edge of broken confidence  
An this will be the thing that makes it right

She was simply just a concept  
Simply just a concept  
Simply just a concept baby come on  
She was simply just a concept baby you don't know how  
much I regret  
An when you think you think of sex  
I've lost almost everything now  
You've been looking for something something  
To make a new connection with fixing a lost thing  
An I've been waiting for someone someone to break  
the repetition with a sindrid song

It's in the way she moves across the floor  
An the way she keeps me waiting for  
For what I can't recall  
Now I'm standing on the edge of broken confidence  
An this will be the thing that makes it right

We're going through the process now  
But will we settle down  
I'm keeping up with the others  
We're going through the process now  
But will we settle down  
I'm keeping up with the others

It's in the way she moves across the floor

An the way she keeps me wanting more  
But now I still recall  
When we were so selfish an we kept on dancing tonight  
tonight tonight tonight  
An this will change everything that made us right
