My beautiful angel  
floating on the wings of truth  
You're my Destiny  
You're like a dream become reality  
Written in the stars above  
shining on our lives

Gentle winds from your heart  
Guiding me to heaven  
Like a perfect sunset  
Melting in the sea  
Your sweet cool spirit  
Caressing me  
I thank God  
Of all my tears

You are my Destiny  
You are the love of my life  
You are the air I breathe

You are the joy that makes me smile  
Like a dream become reality  
Written in the stars above  
Shining on our lives

Gentle winds from your heart  
Guiding me to heaven  
Like a perfect sunset  
Melting in the sea  
Your sweet cool spirit  
Caressing me  
I thank God  
Of all my tears

You are my Destiny (6x)  
Destiny...  
You are my Destiny...
