Trust

=====

We're good soldiers, getting by

On the border of this life

And the darkness is no place

To be frightened, afraid

Trust (x4)

"Trust" means you can't see, but you know, you know

"Follow me" means you can't see but you grow, you

grow

See no evil your soul

I just count on you, I just know

When I question, I am wrong

I should know better, should be strong

Trust (x4)

"Trust you" means you can do, and there's no...I know

"Follow you" means you lead me through and I go, I go

No matter what you do, I put my trust in you

Trust (x16)

Yeah, yeah do I, do I believe you?

Yes I do

And I see, and I see no evil in your soul

Your sweet sweet soul
