Walking alone once again by the shore  
A coast where I've wondered for years  
Here is a spring for my soul  
A home where I cover my tears

My steps break the numbness  
Moon looks silent and pale  
Darkness deluges my cave  
Wolves scream at me on sight  
They are always awake in the night

A sparking flame invades my brain  
Tonight grief wont destroy our game  
My elusive dream now escapes from the sleep  
A restless vision joins my fool-moon trip

As you wait for my sign  
Keep you right frame of mind  
Your mouth can't avoid a lie  
You break into tears  
Betraying your most inner fears  
Try to make up you mood  
Was I misunderstood  
Our fates now are truing to drawn  
Life seems so sort  
So don't close your eyes to the dawn.

A sparking flame invades my brain  
Tonight grief wont destroy our game  
My elusive dream now escapes from the sleep  
A restless vision joins my fool-moon trip

Wait for the dawn  
When you search in the dark all along  
Wait for the dawn  
When you are trying to find the unknown  
Wait for the dawn
