Can't Anybody Stay Together

=====

Oh no, oh no..Prince Charming's leaving on  
And Cinderella's running along  
No glass slipper this time and no more compromise  
But I'm really not surprised  
It happens all the time  
Can't anybody stay together  
Can't anybody keep their love alive  
Can't anybody stay together  
Does anybody really try  
Childhood memories of what true love should be

Tonight I'm Goule DeVot but here it is  
Babies born in love are no longer in love  
What will they do now, my mistaken of, so wrong  
Can't anybody stay together  
Can't anybody keep their love alive  
Can't anybody stay together  
Oh, does anybody, anybody, anybody, anybody really  
try  
I don't know  
(x2 in various forms)
