I thought that it was just a fluke
When I heard that London Bridge was falling
Now, I fall from dizzy heights and expectations
Why do I hit the ground so hard?

When it's, when it's clear to you
I'll be near to you, I will be around
When it's, when it's clear to you
I'll be near to you, I won't let you down

I look for the good in everything
It hurts when I cannot find it
I don't want to wear a suit of armor
Do I have to come out fighting on?

When it's, when it's clear to you
I'll be near to you, I will be around
When it's, when it's clear to you
I'll be near to you, I won't let you down

I was wishing you would not be let down
I'd hoped you would not be disappointed at all

Now you say, when it's, when it's clear to you
I will be near to you, I will be around
When it's, when it's clear to you
I'll be near to you, I won't let you down

I won't, I won't let you
I won't, I won't let you down
It's going to be hard times
Till life seems like you want to ride

I won't let you down
I won't let you down
Let you down
