"Gentle The Rain At Home"

Brave in the clothes of Georgie's
You take a train to the North
Winding through New York
State in the morning, leaves on the floor
Gentle the rain at home
Gentle the rain at home
When we can and will return
When we can and will return
He said I could just take the canoe whenever I need
And, if I go back over the lake, the clouds may recede
Gentle the rain at home
Gentle the rain at home
When we can and will return
When we can and will return
When we can and will return
When we can and will return
