Walking through the world,  
walking under trees.  
Many things that only you  
and only I have seen.  
When you say Oh look and see,  
then there is the sky,  
five o'clock in winter  
when the pink and green arrive.

Now we're blown around.  
And I can't let you down,  
my sun and my  
sweetest sound.  
Oh you are my friend,  
Oh you are my friend.

Now we're blown around.  
And I can't let you down,  
my sun and my  
sweetest sound.

Now we're blown around.  
And I can't let you down,  
my sun and my  
sweetest sound.

Now we're blown around.  
And I can't let you down,  
my sun and my  
sweetest sound.
