They took my soul in the silent nite
Thinks that I'm gonna be just alright
Can't you see I've sorry for this before you caged my
soul
It's more like a play I have to show
The play I have to do so
They took my soul in the silent nite
Thinks that I'm gonna be just alright
The time has come for the team to start playing the
symphony
No more running, no more waiting
To get the sympathy
They took my soul in the silent nite
Thinks that I'm gonna be just alright
