"Stop The Madness"

Better stop the madness before it's getting so far
Better stop the madness before it's getting so high
Trying to tell all the truth, before somebody's getting hurt
Better stop the madness before it's getting so far
Better stop the madness before it's getting so far
Better stop the madness before it's getting so high
But don't burried all the feelings down
Before we knew that we are one
Better stop the madness
Better stop the madness before it's getting so far
Better stop the madness before it's getting so high
Trying to tell all the truth, before somebody's getting hurt
But don't burried all the feelings down
Been nice together with you
Although I'm gonna miss you
